OWEN BROTHERS

Indications.
Washington, July 17.—For Tennessee and Ohio Valley—Warmer, generally southerly winds, fair weather. Lower Lake region—warmer, generally fair weather, northerly winds, becoming variable.

No Fun!

In running about the city these hot days in pursuit of a bottom buy-place for men's, boys', youths' or children's clothing, furnishing goods or hats.

No Necessity

for doing so either, when there is a Manufacturers' Clothing Establishment at your disposal, where gentlemen's outfits of every sort are retailed at wholesale prices; where the marked price is the invariable price; where deception is not dealt in; where consumers are privileged to return any purchase for exchange or refundment of money not proving satisfactory, from whatever cause, so long as the articles are not soiled.

A Week of Breaks.

The coming six days will witness many price breaks. It's the season to clear out odds and ends and broken lines in light weight summer goods, preparatory to laying in full stock. Expect very new news of what is done and doing every day of the week. Two lines (one plain, the other mixed material) in men's suits go down to \$3 per suit tomorrow morning. Another line in men's fancy cassimere, all-wool suits (new goods) will go down to \$9 per suit. What are left of the \$12 piececheck worsted suits will go for \$12. The \$30c. striped coats will remain \$30c. striped coats. The crinkled seersucker coats, at a dollar, will bring a dollar. The \$8 all-wool suits in youths' light color will go for \$4, and others and others.

The tumbled straw hats will all go within the week, of course; half-gone now—25c, 40c, 50c. 10c. seamless half-hose will blossom. Summer underwear will creep under the low pressure prices. Unaltered shirts, will rapidly change hands, continuing the best in this market for every price we ask—50c, 75c, \$1. The latter the celebrated "Seal" shirt, re-enforced back and front, with double-stitched binding and fine linen fronts, neck-bands and cuffs. The remaining 50c. pantaloons, overalls, of solid plaid material, will all be gone within the six days. Whatever we can sell without positive harm will be put down. We want the trade to center here. We want the money that's in our summer goods.

We shall sell fine neckwear for so little in money as to make it seem doubtful whether they are really as fine; you'll know better by comparison. No change in the nickel handkerchief drive, and no handkerchiefs after a few more days' selling. Three styles only—plain, white, white center with fancy border, and Turkey reds.

The Builder of the Dolphin Assigns.

New York, July 18.—John Roach, the ship builder who built the dispatch boat Dolphin, who has been doing business under the name of John Roach & Son, made an assignment today.
The Tribune says that one cause of the assignment is said to be Mr. Roach's state of health. He is suffering from heart disease and fatal results were feared if he continued to worry over the supervision of his business. His attorney says the contract for the remaining three cruisers will be carried out. The assignment fell heavily on the 800 men at work in the Morgan Iron Works. They were thrown out of employment. This fact may extend to the 1,700 others employed at Chester, Pa. A friend of Mr. Roach's, thoroughly informed as to his financial condition and the assets are undoubtedly far larger than the liabilities. Mr. Roach has an extremely extensive property. He has been obliged to take this step because of the condition of his health. He is a remarkable man and he has fought a hard fight against discord unknown to the world in general.

In the first heat for place in the three-mile professional single scull race, next Monday, there were four starters, viz.: Hamm, Ritz, West and Gaudier. The latter went to the front at the word "go," but was soon overtaken by Hamm, who passed him on the home stretch and came in one quarter of a length in the lead. Gaudier second, Ritz third. PHILADELPHIA, July 18.—A fire broke out about 2 o'clock this morning in operating room of the Western Union Telegraph Company, on the fourth floor of the Mutual Life Insurance building, 10th and Chestnut streets. In a comparatively short time the entire room was burned, chairs, table and instruments, including duplex and quadruplex instruments of considerable value, being destroyed.

A handsome and valuable switch board was also destroyed. Only a few of the operators were on duty at the time, and after sending in an alarm they made haste to escape from the room. The prospects at noon are that the company will be able in a few hours to handle the business. The fire is supposed to have been caused by an electric spark carried into the office over which had come in contact with the electric light wire. Many of the company's wires connecting with other cities do not enter the main office, but work directly from the principal branch office at Third and Chestnut streets, and business to that extent is, therefore, not interrupted.

Considerable routine business was transacted Thursday at the regular meeting of trustees of the Soldiers' Orphans' Home, Xenia, at which all the members were present. A meeting of the Soldiers' Orphans' Home, of the big soldiers for the new field, buildings were awarded the contract for furnishing the new boilers for the Home, at their bid of \$1,975, which was the lowest. There were bids from boiler makers in Cincinnati, Dayton and Richmond, Ind. Albert Ross, Springfield, was awarded the contract for construction of the new, added addition to the hospital at the Home. His bid was the lowest, \$3,393. Two Xenia builders were his competitors for the contract. These were all the contracts let. It had been by any other old jobs lying around loose some Springfield man could have been found to take them.

The resignation of Geo. H. Betcher, financial officer, was presented to the Board and accepted. Supt. Jones then presented the name of E. Howard Gilkey, of Springfield, a former inmate of the Home, and the Board confirmed the appointment by a unanimous vote.

Urey, secretary and treasurer, to hand over the cash and bank books, which he refused to do, taking for his excuse at one time that he did not have them, at another time saying that Mr. Mitchell had them if any one has, and afterward saying that they will never get them. It soon became evident that mere words were going to accomplish nothing, when finally Mr. D. made an attempt to strike Mr. N. Mr. Dinwiddie was promptly arrested for assault and battery and threatening to kill. He waived examination and was bound over to await the action of the grand jury. A writ of replevin was gotten out for the recovery of the books, but as yet unfound.—New Carlisle Sun.

About half-past eight Mr. Waugh arose as if to take his leave, handed the license to the Elder and requested him to execute the papers. It was a complete surprise all around the groom himself, who had only expected to have the papers for a future date."

WHIRLS OF THE WHEEL.

Notes on the Coming Event—The Bicycle's Ball—Random Remarks on the Racers—The Band Concert.

S. M. Wainwright, of Noblesville, Indiana, Ex-Chief Consul of the Indiana League, is one of the best riders in the West. His racing machine is already here. He himself is making the trip on a road machine.

George Webber, of Smithville, N. J., holds the twenty-five mile championship of the United States, having won it by a record of one hour and twenty-three minutes. Those who ought to know say that he will carry off everything he enters for.

S. G. Whittaker, of Boston, won the 100-mile race in that city in 1884. He also won five out of seven prizes at the Memphis meet last April and May.

J. F. Knapp, of Cleveland, won two first and two second prizes at the meet in Indianapolis on the 17th and 18th of last June.

The Cleveland Drill Corps is as finely drilled a body of bicyclists as the country contains. They are trained by the professional rider C. Dolph.

P. V. Myers, of Covington, Ky., is a youth of fine shape, with a record of five miles in 17:07.

George Collier, of Cleveland, has a record of 3:08 for one mile.

Bob Kingsbury, of Xenia, will not participate in the races. He hurt his knee in taking a quiet "header" the other day.

J. Landy and son, of Cincinnati, arrived last evening. E. F. Landy, a comparatively young boy, holds the Cincinnati championship, and won two races at the Capital Club meet at Washington in May of 1884.

Will Whetmore, of Cleveland, is a magnificent fancy rider for an amateur.

L. M. Wainwright, W. E. Dunn and Editor Putney, all of Noblesville, Ind., will be the guests of E. M. Campbell during the meet.

The ball and banquet at the Arcade on Tuesday evening promises to be one of the "swellest" events of the kind the city has ever seen. The menu is rich and varied promising to outdo even the supper at the Arcade opening. The dancing will be in Nelson's Business College, and the supper will be served in the dining room of the hotel. Good dancing music is assured by the fact that the Big Six will furnish it. The programme of the dance, the races, and the names are all combined in the handsome little plaid covered souvenir which will be presented to each guest.

The Springfield Seed Co. has the contract for and will begin Monday the work of decoration of the grand stand, judges stand, etc., for the Bicycle Tournament at the Fair Grounds this week, using a profusion of flags, streamers, bunting and other material. The same house will decorate the Arcade for the ball, promenade and banquet Tuesday night. Judging from the work done in the Republican State Convention wigwag something rich, handsome and appropriate may be anticipated.
